

Tiger R6/R10

You Can Purchase the R6/R10 kit in single packs or as a complete kit, all packs shown enable you to build a new car with a new registration, if all packs are purchased at one time a 5% discount is given. The R6/R10 can also be built by not using pack ZE and substituting it with your maybe low mileage used engine. The R6/R10 can also be built using a ford Duratec fitment, for this fitment you will remove pack ZE and substitute with pack ZD.- car shown above is race specification – packs below will build you a road legal “full windscreen” Tiger fitted with standard rear roll loop and wipers- Ford Sigma 1600cc also now available.
